EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Claims 6 and 7 are canceled:

Authorization for this examiner's amendment was given in a telephone interview with William Boshnick (44550) on 3/15/2007.

Election/Restrictions

2. Claims 8-17 directed to an allowable product. Pursuant to the procedures set forth in MPEP § 821.04(B), claims 1-5, directed to the process of making or using an allowable product, previously withdrawn from consideration as a result of a restriction requirement, claims 1-5 are hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Because all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, **the restriction requirement as set forth in the Office action mailed on 7/27/2006 is hereby withdrawn.** In view of the withdrawal of the restriction requirement as to the rejoined inventions, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be

Art Unit: 1765

subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Allowable Subject Matter

1. Claims 1-5, 8-17 are allowed.
2. The following is an examiner's statement of reasons for allowance:
3. Regarding claims 8-17, the cited prior art of record fails to disclose or suggest a piezoelectric thin film resonator with a specific structure that results in claim 8, the prior art of record fails to disclose or suggest a structure manufactured by the steps of providing a protective layer for protecting the piezoelectric film during etching of the upper electrode material, wherein the protective film is provided before providing the upper electrode material layer, and the protective film is formed so as to cover an entire upper surface of the piezoelectric film, and then providing the electrode material so as to cover the protective film, in combination with the rest of the steps/limitations of claim 8.
4. Non elected claims 1-5 are rejoined because they are directed at a method which produces the same allowable structure as the one defined in claim 8.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
